In Fig. 3c of this Article, the column labels were inadvertently the wrong way round, and should be labelled ‘NP-low’ on the left and ‘NP-high’ on the right. In the legend for Extended Data Fig. 5i, ‘by **a**, **b**’ should be ‘by **c**, **d**’, and in the legend for Extended Data Fig. 5j, ‘by **c**, **d**’ should be ‘by **f**, **g**’, so that the legends read as follows: ‘**i**, Durations of contacts between T<sub>FH</sub> cells and wild-type or DKO B cells in GCs, as measured in intravital imaging sessions represented by **c**, **d** and Supplementary Videos 5, 6. **j**, Durations of contacts between wild-type or CCR4KO T<sub>FH</sub> cells and MD4 B cells in GCs, as measured in intravital imaging sessions represented by **f**, **g** and Supplementary Videos 7, 8’. In addition, there were some minor typographical errors in Extended Data Fig. 4c. The original Article has been corrected online.
