Author Correction: The impact of the initial COVID-19 outbreak on young adults' mental health: a longitudinal study of risk and resilience factors

Anna Wiedemann, Jan Stochl, Sharon A. S. Neufeld, Jessica Fritz, Junaid Bhatti, Roxanne W. Hook, NSPN Consortium, Ian M. Goodyer, Raymond J. Dolan, Edward T. Bullmore, Samuel R. Chamberlain, Peter Fonagy, Jesus Perez & Peter B. Jones

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-022-21053-2>, published online 05 October 2022.

The original version of this Article contained an omission in the Methods section, under the subheading 'Risk factors'.

"A detailed list of pandemic-related questionnaire items is provided in Supplementary Materials 2."

now reads:

"The pandemic-related risk factors were adapted from questionnaire items developed as part of the COVID-19 Social Study (for more information, visit www.covidsocialstudy.org/), with a detailed list of items provided in Supplementary Materials 2."

In addition, the Funding section was incomplete. The Funding section now reads:

"Data collection was supported by a strategic award from the Wellcome Trust (095844/Z/11/Z) to the University of Cambridge (IMG, ETB, PBJ) and University College London (RJD, PF). Data management was supported by the NIHR Cambridge Bioresource and data analysis by the NIHR ARC East of England. These funders had no role in determining our study design, hypotheses, interpretation, or the writing of this report. AW, JP, and PBJ were supported by the NIHR ARC East of England at Cambridgeshire and Peterborough NHS Foundation Trust. JF was supported by the NIHR Cambridge Biomedical Research Centre; ETB by an NIHR Senior Investigator award. SRC role in this study was funded by a Wellcome Trust Clinical Fellowship (110049/Z/15/Z & 110049/Z/15/A) which also co-supported data collection for the fourth assessment. The NSPN COVID-19 2020 follow-up survey included a collection of items derived from questionnaire material developed as part of the COVID-19 Social Study, which was supported by the Nuffield Foundation (WEL/FR-000022583), the MARCH Mental Health Network funded by the Cross-Disciplinary Mental Health Network Plus initiative supported by UK Research and Innovation (ES/S002588/1), and the Wellcome Trust (221400/Z/20/Z and 205407/Z/16/Z)."

The original Article has been corrected.
