

VIEWING QUESTIONS: STUDENT HANDOUT #1

After viewing the film clips on chicken farming and endocrine disruptors, respond to the following questions:

1. How do Perdue and other large chicken producers arrange to grow chickens for consumers? Why don't they raise the chickens themselves?
2. What is the difference in opinion about chicken manure between Perdue and other large chicken producers and the chicken farmers (represented in the film by Carole Morison)? Do you agree with Perdue or Carole Morison? Why?
3. What do you understand to be the effect of endocrine disruptors?
4. Which part of the segment on endocrine disruptors did you find most interesting or disturbing? Why? (Cite details.)
